

# **XLynk™**

**Level 2 EV  
Charging Station**

**Designed for Uptime,  
Built for a Lifetime**

## Designed for Uptime, Built for a Lifetime

XLynk™ was inspired by years of deployment experience to optimize function and maximize performance.

- It is the first and only commercial EV charger with a Lifetime Warranty
- The EZ-Swap Faceplate™ allows for customization, upgrading, or maintenance in under 5 minutes
- It is Made in America with select globally sourced parts by Lynkwell's team in New York State

**>50%**  
**Faster**  
Installation Time

The modular construction and streamlined software configuration process results in a 50% faster installation time compared to other units.

### The Ultimate Workhorse:

- Ideal for fleet, public, and private EV charging
- Bundle with Lynkwell's industry-leading software for the total solution

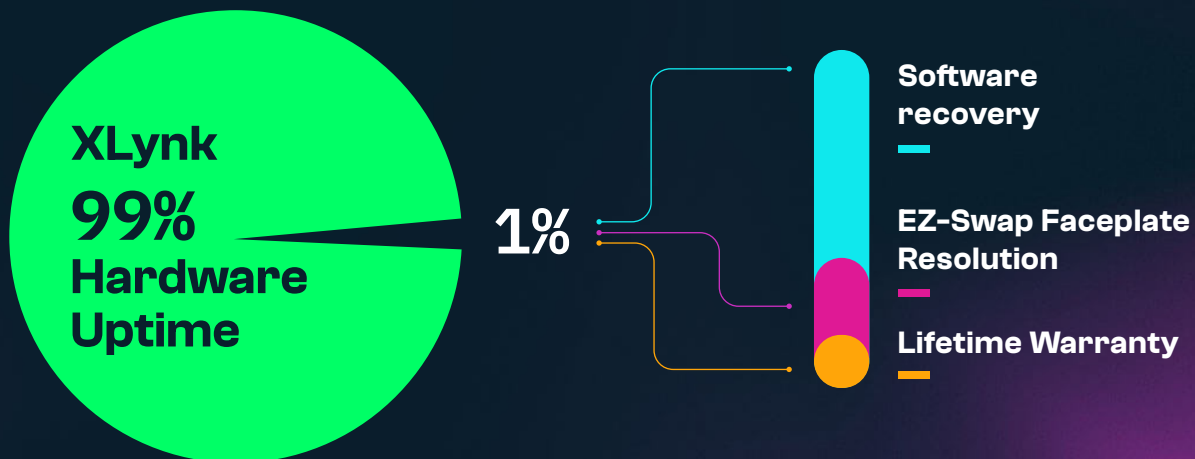

## Discover Uptime-Centric Design

- Our comprehensive offering of the XLink, operating software, and Lifetime Warranty ensures optimal performance and reliability.
- Our advanced software recovery system can resolve most potential issues quickly and remotely.
- In the rare cases where physical maintenance is needed, the EZ-Swap Faceplate allows for quick fixes—solving up to 75% of potential hardware issues in under five minutes using just a few simple hand tools.
- The Lifetime Warranty completes this bundle, offering peace of mind with comprehensive coverage and support.

## Uptime

We've got you covered **100%** of the time

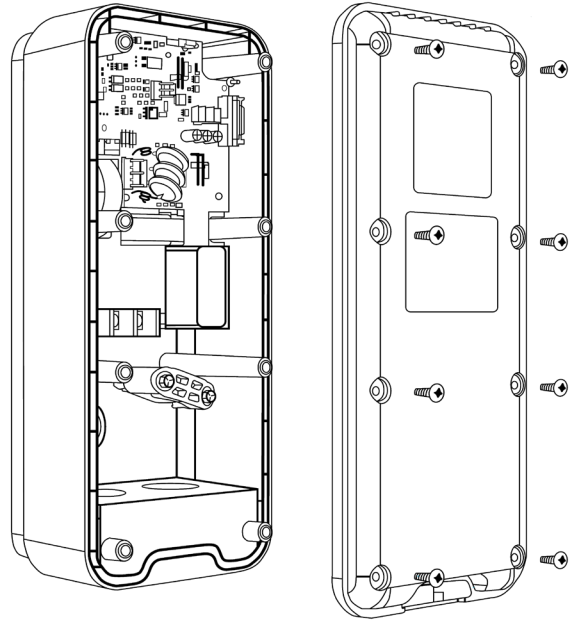

## Introducing the EZ-Swap Faceplate™

Designed for simple installation and quick servicing – with just a few simple hand tools:

- Customize, upgrade, or maintenance in less than 5 minutes
- Solve 75% of hardware needs by replacing the EZ-Swap Faceplate
- Avoid the costs, downtime, and aggravation of a full-hardware replacement

**1 min 56 sec**

**Our fastest faceplate swap time**

## Lifetime Warranty

Be flexible and confident:

- The first two years of warranty are included
- Additional prepay or pay-as-you-go options available
- First and only commercial EV charger with a Lifetime Warranty

## Proven Reliability

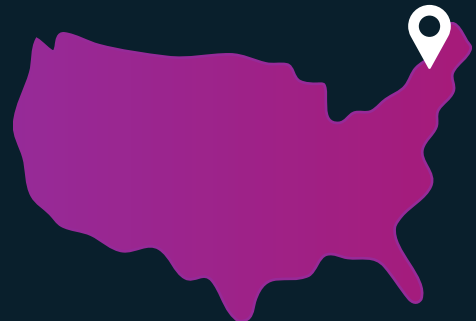

Our industry experts engineered the XLink with the understanding that success of an electrified site hinges on a reliable charging experience. The XLink exceeds industry standards for durability, ensuring performance at extreme temperatures, altitudes, and environments.

## US-Based

- Buy America Act (BAA) compliant options available.
- Lynkwell's manufacturing, software, and services teams are co-located to ensure seamless interoperability and continuous innovation.
- The XLink is Made in America with global parts by Lynkwell's team in New York State.
- Our US-based support team is available 24/7 to ensure a great experience for site hosts and drivers.

\*Inquire with your sales agent to ensure the XLink model selected meets your requirements for domestically sourced goods and is specified accordingly in your purchase order.

## Robust Firmware

Our hardware's reliability is accompanied by robust firmware capable of automatically resolving most issues without physical intervention.

- OCPP-compliant for easy integration
- Automatic reconnection when the unit goes offline
- Over-the-air (OTA) updates for seamless improvements
- Local load management to optimize energy distribution, maximize efficiency and minimize costs
- Multi-carrier SIM enabled to ensure connectivity

## Flexible Mounting Options

The modular pedestal design streamlines the installation and setup process, while its rugged construction is proven to withstand wear-and-tear and even the most extreme weather conditions.

The XLink is flexible to suit your unique needs at private, public, or fleet sites with mounting options that includes:

- Wall or pedestal mount
- Conduit entry points on the rear and bottom for additional flexibility
- ViaLink Universal Pedestal™ (add on cable management)

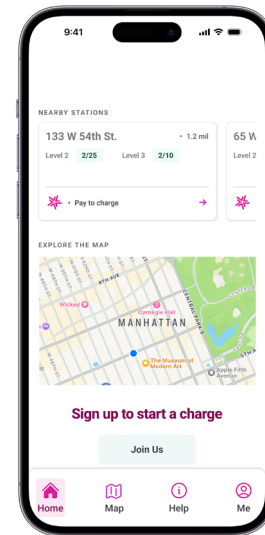

# A Comprehensive Solution

## Industry-Leading Software

To ensure charging hardware is reliable, secure, and easy to use, Lynkwell offers purpose-built software solutions and robust support for immediate integration and industry-leading functionality.

Experience how Lynkwell supports the entire EV charging lifecycle by combining our management software with 24/7 US-based support and a highly rated user-friendly driver app.

## About Lynkwell

Lynkwell is a leading energy infrastructure development company focused on connecting renewable generation, battery storage, utilities, and microgrids with next-generation fueling technologies. Ranked as one of the fastest-growing private companies in the United States for the last three years, Lynkwell's leadership is bolstered by its top 10 nationwide cloud-based EV charging software platform which hosts dozens of EV charging networks and manages 10,000 assets. With a curated catalog of more than 500 products from leading global OEMs plus its own XLink™ charger, Lynkwell's unique combination of full deployment solutions and energy integrations gives all clean energy stakeholders the power to thrive. Since 2016, the company has been instrumental in establishing private and public charging solutions and supporting infrastructure to empower America's growing clean energy revolution.
